CONCRETE COATINGS - 60 SECOND EXAMPLES (FEEL FREE TO COPY)

Concrete Coatings #1

Hi, I am Matt Rivera with ShieldStone Coatings. Floors that take a beating and still look great. This week I am looking for homeowners with cracked, stained garage floors who plan to sell within six months. A client had oil spots and flaking paint. We repaired cracks, diamond ground the slab, and installed a full chip polyurea system. The garage became a showpiece and the home received stronger offers. This week I am asking for sellers who want a fast upgrade that photographs beautifully. Our coatings cure quickly, resist hot tire pickup, and come with a written warranty. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. We coordinate with all parties. I am Matt Rivera with ShieldStone Coatings. Floors that take a beating and still look great.

Concrete Coatings #2

Hi, I am Alina Brooks with ProDeck Concrete Coatings. Safer steps and better looking spaces. I want restaurant owners with slippery back entries or flaking kitchen floors. A cafe struggled with slips during wet weather. We installed a quartz broadcast system with an anti slip topcoat over a weekend. Staff returned to a safer workspace on Monday. This week I am looking for owners who say the floor peels or feels slick. Connect us for a site walk. We prep correctly, install efficiently, and stand behind the finish with service that lasts. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. We coordinate with all parties so the handoff stays smooth and predictable. I am Alina Brooks with ProDeck Concrete Coatings. Safer steps and better looking spaces.
