HAIR STYLIST - 60 SECOND EXAMPLES (FEEL FREE TO COPY)

Hair Stylist #1

Hi, I am Naomi Park with Slate Salon. Healthy hair with modern shape. This week I am looking for professionals who changed jobs and need a fresh, camera ready cut for new headshots. A client brought an old photo and uncertainty. We refined the shape, added shine treatment, and taught a five minute styling routine. Her photos looked current and confident. This week I am asking for referrals who say they have a shoot coming up. Expect punctual appointments, product education, and results that hold between visits. Expect clear communication, transparent pricing, and realistic timelines. I am Naomi Park with Slate Salon. Healthy hair with modern shape.

Hair Stylist #2

Hi, I am Isaac Miller with Harbor Hair Studio. Color that complements and lasts. I want women who cover grays every three to four weeks and want a lower maintenance plan. A client felt chained to the chair. We shifted to blended highlights and a rooted tone. Grow out looked soft and visits stretched to eight weeks. This week I am looking for busy professionals who want color that works with real life. We protect hair health and send clients home with clear care steps. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. I am Isaac Miller with Harbor Hair Studio. Color that complements and lasts.
