## **HEAT & AIR - 60 SECOND EXAMPLES (FEEL FREE TO COPY)**

### **Heat and Air #1**

Hi, I am Alex Turner with ComfortWave Heating and Air. Reliable comfort in every season. This week I am looking for homeowners whose systems are over fifteen years old and who face frequent repairs. A family endured noisy summers and uneven rooms. We installed a properly sized system with a two stage compressor and sealed the ducts. The home became quiet and consistent. This week I am asking for neighbors who say rooms never match the thermostat. We offer honest diagnostics, maintenance plans, and clean installs that protect indoor air quality. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. We coordinate with all parties so the handoff stays smooth and predictable. I am Alex Turner with ComfortWave Heating and Air. Reliable comfort in every season.

### **Heat and Air #2**

Hi, I am Dana Brooks with RapidAir HVAC. Fast fixes done right. I want property managers who receive repeated no cool calls on the same unit each summer. A condo building replaced capacitors three times. We tested static pressure, corrected airflow, and balanced charge. Failures stopped and bills dropped. This week I am looking for managers who say the same unit keeps failing. We stock common parts, respect schedules, and document every visit with photos and notes. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. We coordinate with all parties so the handoff stays smooth and predictable. Our team documents progress with notes, photos, and status updates. I am Dana Brooks with RapidAir HVAC. Fast fixes done right.
