WEB DESIGN & DEVELOPMENT - 60 SECOND EXAMPLES

(FEEL FREE TO COPY)

Web Design & Development #1

Hi, I'm Leigha Abigail with Beacon Web Studio. Professional service delivered with care. This week I am looking for service businesses whose homepage takes more than three seconds to load or whose contact form does not send to a CRM. A HVAC contractor's site loaded slowly and leads vanished. We rebuilt on a lightweight framework, added clear calls to action, and integrated scheduling. Calls and form submissions increased. This week I am looking for owners who say the website looks fine but the phone is quiet. I am Leigha Abigail with Beacon Web Studio. Your website should sell while you sleep. We deliver fast sites, transparent analytics, and edits that non-technical staff can make confidently. We begin with a short discovery call to confirm fit and goals.

Web Design & Development #2

Hi, I'm Dustin Cole with LaunchPad Digital. Professional service delivered with care. I want nonprofits that rely on donations but make visitors hunt for the give button. A local shelter's donate page was buried. We simplified the menu, added one-click monthly giving, and wrote clear impact copy. Monthly donors increased within sixty days. This week I am looking for organizations that want digital fundraising to feel simple for supporters. I am Dustin Cole with LaunchPad Digital. Design that converts and code that endures. We audit, prototype, and ship with care so your site stays fast, accessible, and persuasive. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps, dates, and owners. Expect direct communication, transparent pricing, and realistic timelines.
