INSULATION SALES & INSTALL - 60 SECOND EXAMPLES (FEEL FREE TO COPY)

Insulation Sales & Install #1

Hi, I am Peter Shaw with WarmNest Insulation. Comfort you can feel and savings you can measure. This week I am looking for owners of homes built before 2005 with uneven temperatures between floors. A client's upstairs was hot and the downstairs was chilly. We air sealed the attic, added blown in insulation, and sealed the hatch. Temperatures leveled and bills dropped. This week I am asking for homeowners who complain about drafts or cold floors. We provide infrared photos, clear reports, and rebates when available. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. We coordinate with all parties so the handoff stays smooth and predictable. Our team documents progress with photos and videos. I am Peter Shaw with WarmNest Insulation. Comfort you can feel and savings you can measure.

Insulation Sales & Install #2

Hi, I am Carla Nguyen with EcoSeal Foam. Tight homes, quiet rooms. I want custom home builders who need consistent blower door results. A project missed code twice. We sealed penetrations, foamed rim joists, and trained trades on best practices. The next test passed with room to spare. This week I am looking for builders who want fewer callbacks and better comfort ratings. We show up on schedule, protect job sites, and document results for inspectors and clients. We begin with a short discovery call to confirm fit and goals. Next we outline a simple plan with clear steps and dates. Expect clear communication, transparent pricing, and realistic timelines. We coordinate with all parties so the handoff stays smooth and predictable. Our team documents progress with notes, photos, and status updates. I am Carla Nguyen with EcoSeal Foam. Tight homes, quiet rooms.
